

KTSB Gold Award

KTSB has done it again for the second consecutive year!

It was another proud moment for KTSB to be conferred the Gold Award for the second time in a row at the National Occupational Safety and Health Council's 2007 Excellence Award Ceremony.

Mr. Law Say Huat, CEO, accompanied by Mr. Surizan Khalil, HSEQ and Operational Excellence Manager, were extremely proud to be on stage to receive the trophy from Datuk Seri Najib Tun Abdul Razak, Deputy Prime Minister of Malaysia. All members of the KTSB Health, Safety and Environment Committee including over 1,000 representatives from other various industries were present to celebrate the auspicious occasion held at the Putra World Trade Centre Kuala Lumpur on 9th July 2008.

Our CEO, Mr. Law Say Huat was quoted saying "This award is a great motivation for all our colleagues to continue our long journey to be the best and safest terminal for our customers and employees to have ever worked with". It is a significant achievement for the whole team and reinforces our commitment and focus in the implementation of our comprehensive HSE Management System."

Surizan Khalil, the HSEQ and Operational Excellence Manager, also talked about KTSB's future plans, "We have set an ambitious objective with a realistic HSE target. Our next goal is to ensure a sustainable Behavioral Based Safety culture and the implementation of Process Safety Management. Outstanding HSE performances coupled with continuous improvement will only be achieved when there is a culture in which the elements of the management system can flourish."

The award was another milestones for 2008 as KTSB had just celebrated "One Million Man-hours Without any LTI Incident" on 9th March 2008".

Our success would not have been possible without the hard work and commitment from all our colleagues in the implementation of the company's HSE Policies and Management System. Once again TAHNIAH / CONGRATULATIONS and TERIMA KASIH / THANK YOU to all of you for realizing our mission to be the best and safest terminal.
