

NEWS RELEASE

Vopak Terminals Korea commissions new tanks

Singapore, 24 February 2009

Expansion of the Vopak Terminal Korea's capacity to better serve our customers

In November 2008 Vopak Terminals Korea (VTK) commissioned two new tanks. One was a 5,000 cbm carbon steel tank for industrial feed and the other completed tank is a 2,000 cbm carbon steel tank targeted for the spot transshipment market and currently storing ethanol product.

The combined capacity at VTK is now at 254,100 cbm!
